## ADYAR NATURE AND ENVIRONMENT CENTRE

The Theosophical Society, Adyar, Chennai 600 020

### May Program

**Saturday, 19<sup>th</sup> May 2018**

**5.00 – 6.00 pm**

**Speaker: Mr S. Krishnamurthy**

Laurel, Maryland, USA

**Venue : Adyar Library Lecture Hall**

**Title of Talk and background note:**

### **Predators and their Prey - Nature in the Raw**

*“Krish” grew up in the TS estate during the 40s and early 50s while attending the Besant Theosophical School. This instilled in him a deep bond with Nature. Later after graduating he had the opportunity to live for over a decade in East Africa while following his professional pursuit as an Actuary. This gave him ample opportunity to make many Safari trips in the African National Parks, observing wildlife closely. He later moved to the US and continued his interest in Nature and wildlife. After superannuation, in pursuit of his passion, he established Krish Group, Inc., to conduct guided tours to the Game Parks of Africa. He has escorted tour groups from the US to Serengeti and Ngorongoro National parks over two dozen times todate.*

*The talk will give an overview of his observations and impressions on Animal Evolution and its relation to the Human condition. He fully understands the import of the “Animal Brain” that J.Krishnamurti often talked about! Krish has recently compiled his thoughts and observations in the form of a book titled “**On Seeing Without Models**” which has just been released.*
