Converging Paths to Truth?

with
Dr Edi Bilimoria

MARCH 2025

03, 05, 07, 10, 12, 14

Time: 08:00-9:30 PM IST

This course in six sessions will examine both scientific and occult approaches to Truth and attempt to vindicate the legendary maxim in the *Mahatma Letters*, 'Modern science is our best ally [but]...'

We are tremendously grateful for science, as the foundation of our present age, and we acknowledge its lasting impact on human progress. Our primary goal is to demonstrate that modern science, when enriched with the wisdom of occult science, can reach a higher metaphysical understanding. This integration allows for a more profound exploration of reality, ensuring that scientific advancement does not confine itself to rigid frameworks but remains open to the deeper truths that have guided humanity for ages.

A Consultant Engineer by profession, also a choral singer and dedicated classical pianist, **Edi Bilimoria** has been a student of the perennial philosophy for well over half a century. A worldwide speaker, his two prize winning works are *The Snake and the Rope* and *Unfolding Consciousness* in four volumes.
